

Example of Lev's cool commands!

€

TODO: This is a todo!

Theorem 0.1 (This is a theorem!): Its cool

Proof: By the power of math!

An LLM Explains: This is an LLM Explains! I plan on using this in blog posts and some more informal writing. The idea is to have a box that stands out and explains something in a more casual/ intuitive way where an LLM more or less explains something confusing in the writing

Anthropic's Claude Explains: This is Claude explaining something!
